

```
1 uopz_set_return( 'func' , function($args) {  
2   try {  
3     $ret = func($args);  
4   } catch($e) { /* Exception handling */ }  
5   // Log function, args, errors and exceptions  
6   return $ret;  
7 }, true);
```

Listing 2: Instrumenting (non-)native PHP functions with UOPZ.
